Life Skills

Role Models is a London education provider and we believe that talking and thinking should be given as much weight as reading and writing in any child's development and our courses are designed to support that belief. The courses are run by highly experienced Role Models and delivered through active learning in order to challenge and empower the children. Focusing on either Leadership, Resilience, Collaboration or Problem solving, one of our courses will help your child to develop the skills they need to build a future for themselves.

We run courses throughout the year - in the February and Autumn half-terms and Easter, Summer and Christmas holidays. You'll find more details of all of our courses on the website.

Bespoke Courses:

We can design bespoke courses for small groups of children aged 6-15 if our dates do not work for you. Please contact us if you would like to discuss this.

What other people have said

- 91% of students would be likely or extremely likely to recommend a course to a friend.
- 100% of pupils now strongly believe that creativity is something you can develop and get better at.
- 87% of pupils rated their leadership skills as strong post-course.

Team

The courses have been designed by our Head of Character Education and former Deputy Head of a London Prep School. They will be led by experienced UK teachers and supported by a terrific team of UK Role Models trained in life skills.
